SNEHA GOYAL

snehagoyal4295@gmail.com | +91-8923274295 | linkedin.com/in/goyal-sneha7 | github.com/Sneha-goyal7

SUMMARY

Final-year B.Tech Computer Science student with hands-on experience building full-stack web applications (MERN) and responsive UI components using HTML, CSS and JavaScript, backed by a solid foundation in Object-Oriented Programming, DBMS/SQL, and Data Structures & Algorithms.

TECHNICAL SKILLS

Languages: C++, JavaScript, Python.
Cloud & DevOps: AWS (EC2, S3), IBM Cloud, Git.
Web & Frameworks: React.js, Next.js, Node.js, Express.js, REST APIs, Tailwind CSS.
Databases: MongoDB, MySQL.
AI/Tools: LangChain, OpenAI/Claude APIs, RAG pipelines, Prompt Engineering, LLM APIs.
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

GitHub PR Review Assistant github.com/sneha-goyal7/Git-PR-Assist *Jun 2026 – Aug 2026*
Tech: React, Node.js, Express, MongoDB, GitHub REST API, LLM API

- Full stack web app where users sign in with GitHub, select a repository and pull request, and get AI-generated review feedback on bugs, code quality and improvements.
- Built 5 Express REST APIs that fetch PR diffs through the GitHub API, create structured prompts for the LLM, and save review history per user in MongoDB.

Kriya: Personalized AI Learning Platform github.com/sneha-goyal7/kriya | kriya-pro.vercel.app *March 2026 – May 2026*
Tech: React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, Tailwind CSS

- Full stack MERN learning platform with student and instructor roles, covering course management, video lectures per module, progress tracking and AI-personalized content recommendations.
- Built REST APIs for authentication, courses, enrollment and learner progress with JWT login; integrated a payment gateway for premium course enrollment.
- Designed a responsive UI for mobile and desktop; deployed frontend on Vercel and backend on Render.

Codos: Online Code Judge Platform github.com/sneha-goyal7/Codos *Dec 2025 – Jan 2026*
Tech: React, Node.js, Express, MongoDB, JWT, Judge0 API

- Full stack coding platform with 15 problems where users write C++ or JavaScript code in an in-browser editor and get instant verdicts (Accepted, Wrong Answer, Time Limit Exceeded) against 5 test cases per problem.
- Built REST APIs with JWT authentication; integrated Judge0 API for code execution and stored submission history in MongoDB.

EXPERIENCE

Gen AI & Cloud Computing Intern — IBM SkillsBuild (AICTE Approved, Bharat Cares Initiative) *Jun 2026 – Jul 2026*

- Completed a 2-month industry internship focused on Generative AI and Cloud Computing under the AICTE-approved IBM SkillsBuild program.
- Built and deployed AI-driven applications using IBM Watsonx, exploring LLM integration, prompt engineering, and RAG-based solutions.
- Gained hands-on exposure to cloud fundamentals (IBM Cloud), containerization, and deploying scalable workloads — directly applicable to enterprise cloud/data engineering environments.
- Completed guided labs and a capstone project, earning a certification of completion from IBM SkillsBuild.

ACHIEVEMENTS

- Solved 300+ data structures & algorithms problems on LeetCode.
- Completed "Full Stack Developer" certification on SimpliLearn SkillUp.
- Completed the ChatGPT for Students Course under HCL GUVI's Bharat AI Initiative (powered by OpenAI), gaining practical proficiency in prompting techniques and responsible AI practices.

EDUCATION

B.Tech in Computer Science and Engineering *2023 – 2027*
AKGEC Engineering College, Ghaziabad — CGPA: 8.38/10
